1. Introduction and statutory guidance

This Policy is written in line with the Relationships Education, Relationships and Sex Education (RSE) and Health Education Statutory Guidance September 2021. The policy has been produced in partnership with Hamwic Education Trust.

The statutory guidance used to inform this policy is listed below

- As a primary academy school we must provide relationships education to all pupils as per section 34 of the [Children and Social work act 2017](#).
- We do not have to follow the National Curriculum but we are expected to offer all pupils a curriculum that is of similar breadth and depth to the National Curriculum. This includes the requirement to teach the elements of sex education contained in the science curriculum. At Harefield Primary School we follow the national curriculum for science.
- In teaching Relationships and Health Education, we are required by our funding agreements to have regard to [guidance](#) issued by the secretary of state as outlined in section 403 of the [Education Act 1996](#).

2. Definitions and key areas of teaching

Relationship Education – Primary

Relationship Education will focus on teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and adults.

All teaching will reflect the Equality Act 2010 ensuring there is no discrimination for any pupil or family with protected characteristics. This does not prevent church schools from teaching about a faith perspective regarding relationships as part of the wider teaching.

Children will be taught in an age-appropriate way about the characteristics and values of healthy relationships, including area such as differences, boundaries, respect, trust and kindness. Teaching will focus on both face-to-face and online relationships recognising the significance of the digital world we now embrace. Teachers will also take all opportunities to discuss positive emotional and mental well-being with children. The characteristics that will be taught are also reflected in the school values of:

- Be Aspirational
- Be Safe
- Be Kind

Learning will be planned to meet the objectives set out in the Relationships Education, Sex Education (RSE) and Health Education Statutory Guidance 2021 (see appendix 1), under the broad headings of

- Families and people who care for me
- Caring friendships
- Respectful relationships
- Online relationships

- Being safe

3. The Science Curriculum - body changes and life cycles

Sex Education beyond the requirements of the science national curriculum is not compulsory in primary schools; however, we recognise the importance of preparing children well for secondary school. At Harefield Primary school, children will be taught about puberty as set out in the expectations of the science National Curriculum. In line with year group expectations, children will learn about external body parts, changes in the human body from birth to old age, and reproduction in some plants and animals. As part of the life cycle objectives, Year 5 and 6 pupils will be taught the science of how a baby is conceived and born. In our school, we only teach the body changes and life cycles required by the science national curriculum. As a consequence, parents do not have the right to withdraw children from these scientific lessons. (Parents will have the opportunity to discuss and view the content of the Year 5/6 curriculum before it is taught.)

We recognise that during such lessons, children may have questions as a result of their learning. We are mindful that unanswered questions often lead to misconceptions and will aim to avoid this where possible.

When questions arise, they will be dealt with as follows.

- Questions directly linked with the science taught will be answered factually for the class or individual. Children will be given the opportunity to write anonymous questions submitted via a question box
- Questions of a personal nature directly linked to the teaching may need to be dealt with by talking directly to the child with an additional adult also present. If deemed necessary, teachers will inform parents of the questions asked. Wherever possible, questions will be answered in front of all pupils via the question box.
- Where a question relates to sex education beyond the scientific teaching, children will be advised to ask their parents or carers.

In addition to the science curriculum, we will also teach “My changing adolescent body” as part of our SRE. We have decided to do this because we believe children need to be aware of the physical and emotional changes that will be happening to them, so that they can be prepared for this. We believe that this is in the best interest of their mental and physical well-being. Parents have the right to withdraw children from Sex Education aspects that are not part of the science curriculum. In the first instance, parents should contact the Headteacher who will advise parents on how to withdraw.

<p>My changing adolescent body</p>	<p>Yr R</p> <ul style="list-style-type: none"> • Know the different parts of their body – arms, head, legs, chest etc. • Understand that their body has changed since they were a baby (baby, toddler, child). Use the language and describe the different life stages of: baby, child, teenager, adult, older age. Talk about their own experience of growing up • Explain that a baby is made by a woman and a man, and grows inside a mother's tummy. Understand that every family is different. Talk about similarities and differences between themselves and others. Explain which parts of their body are kept private and safe and why. • Tell or ask an appropriate adult for help if they feel unsafe 	<p>Yr 1/2</p> <p>Understand some of the tasks required to look after a baby;</p> <ul style="list-style-type: none"> • Explain how to meet the basic needs of a baby, for example, eye contact, cuddling, washing, changing, feeding. <p>Identify things they could do as a baby, a toddler and can do now;</p> <ul style="list-style-type: none"> • Identify the people who help/helped them at those different stages • Identify different stages of growth (e.g. baby, toddler, child, teenager, adult); • Understand and describe some of the things that people are capable of at these different stages. 	<p>Yr 3/4</p> <p>Understand that for girls, periods are a normal part of puberty.</p> <ul style="list-style-type: none"> • Identify some of the ways they can cope better with periods. 	<p>Yr 5/6</p> <p>Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes. To know and understand menstrual wellbeing including the key facts about the menstrual cycle (including what happens when an egg doesn't meet a sperm)</p> <ul style="list-style-type: none"> • To know how a baby is conceived and born, including recognising that babies come from the joining of an egg and sperm
------------------------------------	--	--	---	---

4. Health and wellbeing

Health and wellbeing education will focus on the characteristics of good physical health and mental wellbeing. It will include aspects such as the importance of exercise, good nutrition and the normal range of emotions we experience. Pupils will be taught about moderation, including online and the positive two-way relationship between good physical health and good mental wellbeing.

Learning will be planned at an age-appropriate level to meet the objectives set out in the Relationships Education, Sex Education (RSE) and Health Education Statutory Guidance 2021 (see appendix 2), under the broad headings of

- General wellbeing
- Internet safety and harms
- Physical health and fitness
- Healthy eating
- Drugs, alcohol and tobacco
- Health protection and prevention
- Personal safety
- Basic first aid
- Developing bodies

5. Relationships and health curriculum delivery-primary

Relationships and Health Education (RHE) is taught through weekly lessons linked to the school's personal, social and health education programme and links with the whole school assembly programme. An overview of the broad topics covered and the linked Relationship and Health objectives can be found in appendix 3.

Biological aspects of sex education are taught within the science curriculum in line with the age expectations set out in the National curriculum. A number of aspects of the RHE link closely to science, computing, PE and DT. Where this is the case, messages will be reinforced within these subjects (appendix 4).

The areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

We are mindful that some children with SEND may need additional support to understand the themes and learning within the relationships and health education curriculum. Teachers will draw on their knowledge of the child to ensure learning is differentiated appropriately.

We will keep abreast of local contextual issues and support these through our curriculum where possible.

In Southampton, we are aware that the locality is towards the end of the 2017-2025 Health and wellbeing plan and that the pandemic has slowed progress. The locality also now has a 2022 – 2027 Education Strategy plan with the vision of: *we want all children and young people in Southampton to get a good start in life, live safely, be healthy and happy and go on to have successful opportunities in*

adulthood. A rise in domestic abuse and violence against women and girls has led the city council to produce a targeted 2023-2027 plan.

6. Roles and responsibilities

The local governing committee

The local governing committee will consult parents, suggest amendments to the headteacher and approve the RHE policy. They will hold the headteacher to account for its implementation.

The headteacher

The headteacher is responsible for ensuring that RHE is taught consistently across the school, and for managing requests to withdraw pupils from any non-scientific components of sex education (in line with the science national curriculum).

The Headteacher will determine whether any aspects of the curriculum will be delivered by professionals outside of the school (e.g., the school nurse may deliver information about menstruation).

Staff

Teaching staff are responsible for:

- Delivering Relationships and Health Education in a sensitive way and in accordance with their year group expectations
- Modelling positive attitudes to Relationships and Health Education
- Monitoring progress
- Responding to the needs of individual pupils
- Responding appropriately to pupils whose parents wish them to be withdrawn from non-statutory components of RSE and Health Education

Staff do not have the right to opt out of teaching RHE. Staff who have concerns about teaching RHE are encouraged to discuss this with the headteacher. The leader for RHE Harefield Primary School is Helen Heal.

Pupils

Pupils are expected to engage fully in RHE and, when discussing issues related to RHE, treat others with respect and sensitivity.

7. Training

Staff are trained on the delivery of RHE and biologic aspects of the science curriculum as part of their induction and it is included in our continuing professional development calendar. Staff have access to the RHE Policy and revisit this when changes occur.

The headteacher will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RHE.

8. Monitoring of RHE

The delivery of RHE is monitored by Senior Leaders and the RHE leader through:

- Planning scrutiny
- Lesson observation
- Analysis of pupils' work and discussions with pupils
- Monitoring of SEN plans and IEPs where appropriate
- Sampling of pupils' end of year reports
- Pupil and Parent questionnaires

Pupils' development in RHE is monitored by class teachers as part of our internal assessment systems.

This policy will be reviewed annually and will require approval by the local governing committee.

APPENDIX 1 – Expectations for Relationships Education – By the end of Primary

Families and people who care for me	<p>Pupils should know</p> <ol style="list-style-type: none"> 1. that families are important for children growing up because they can give love, security and stability. 2. the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives. 3. that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care. 3. that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up. 4. that marriage¹ represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong. 5. how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.
Caring friendships	<p>Pupils should know</p> <ol style="list-style-type: none"> 1. how important friendships are in making us feel happy and secure, and how people choose and make friends. 2. that through no fault of their own, not every child will have the friends they would like, that most people feel lonely at some point and that there is no shame in feeling lonely or talking about it. 3. the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties. 4. that healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded. 5. that most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right. 6. how to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.
Respectful relationships	<p>Pupils should know</p> <ol style="list-style-type: none"> 1. the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs. 2. practical steps they can take in a range of different contexts to improve or support respectful relationships. 3. the conventions of courtesy and manners. 4. the importance of self-respect and how this links to their own happiness. 5. that they can expect to be treated with respect by others, and that in turn they should show respect to others, including those in positions of authority.

	<p>5. about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help.</p> <p>6. what a stereotype is, and how stereotypes can be unfair, negative or destructive.</p> <p>7. the importance of respecting boundaries, including understanding permission-seeking and giving in relationships with friends, peers and adults.</p>
Online relationships	<p>Pupils should know</p> <ol style="list-style-type: none"> 1. that people sometimes behave differently online, and that this can lead to dangerous situations. For example, someone pretending to be someone they are not, or an adult presenting as a child, to get another person to do something for them that they don't want to do or shouldn't do. 2. that children should be respectful in online interactions, and the same principles apply to online relationships as to face-to-face relationships, including when we are anonymous. 3. the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. 4. how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met. 5. how information and data is shared and used online, including the risks of sending images and information (without discussing details of sexual imagery). 6. about online risks, including that any material someone provides to another has the potential to be circulated online and that once a picture or words has been circulated there is no way of deleting it everywhere and no control over where it ends up. 7. that there is a minimum age for joining social media sites (normally age 13) in part to protect children from inappropriate content or unsafe contact with older social media users, who may be strangers, including other children and adults. 8. the importance of avoiding putting pressure on others to share information and images online, and strategies for resisting peer pressure. This should be covered without discussing details of sexual imagery. 9. who to go to for advice and support when they feel worried or concerned about something they have seen or engaged with online. Pupils should understand what they should do if they see something online that makes them feel worried. <p>Pornography should not be referenced in primary education.</p>
Being safe	<p>Pupils should know</p> <ol style="list-style-type: none"> 1. what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context). This can include learning about boundaries in play and in negotiations about space, toys, books, resources and so on. 2. about the concept of privacy and its implications for both children and adults; including that it is not always right to keep secrets if they relate to being safe. 3. that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe contact, including physical contact.

	<ol style="list-style-type: none">4. how to respond safely and appropriately to adults they may encounter (in all contexts, including online), including those they do and do not know.5. how to recognise and report feelings of being unsafe or feeling bad about any adult.6. how to ask for advice or help for themselves or others, and to keep trying until they are heard.7. how to report concerns or abuse, and the vocabulary and confidence needed to do so.8. where to get advice e.g. family, school and/or other sources.
--	---

APPENDIX 2 – Expectations of Health Education -By the end of Primary Education

General Wellbeing	<p>Pupils should understand</p> <ol style="list-style-type: none"> 1. the benefits of physical exercise, time outdoors, and helping others for wellbeing and happiness. Simple self-care techniques, including the importance of rest, time spent with friends and family and hobbies, interests and community participation. 2. the importance of promoting general wellbeing and physical health. 3. the range and scale of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) that they might experience in different situations. Pupils should understand that worrying and feeling down are normal and affect everyone at different times and are not in themselves a sign of a mental health condition. 4. how to recognise feelings and use varied vocabulary to talk about their own and others' feelings. 5. how to judge whether what they are feeling and how they are behaving is appropriate and proportionate. 6. that isolation and loneliness can affect children, and the benefits of seeking support. 7. that bullying (including cyberbullying) has a negative and often lasting impact on mental wellbeing. 8. that change and loss, including bereavement, can provoke a range of feelings; that grief is a natural response to bereavement, and everyone grieves differently. 9. where and how to seek support (including recognising the triggers for seeking support), including who in school they should speak to if they are worried about their own or someone else's mental wellbeing or ability to control their emotions (including issues arising online). 10. that it is common to experience mental health problems, and early support can help resolve problems.
Healthy eating	<p>Pupils should know</p> <ol style="list-style-type: none"> 1. what constitutes a healthy diet (including understanding calories and other nutritional content). 2. the principles of planning and preparing a range of healthy meals. 3. the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).
Drugs, alcohol, tobacco and vaping	<p>Pupils should know</p> <ol style="list-style-type: none"> 1. the facts about legal and illegal harmful substances and associated risks, including smoking, vaping, alcohol use and drug-taking.
Health protection and prevention	<p>Pupils should know</p> <ol style="list-style-type: none"> 1. how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body. 2. about safe and unsafe exposure to the sun, and how to reduce the risk of sun damage, including skin cancer. 3. the importance of sufficient good quality sleep for health and the impact of poor sleep on weight, mood and ability to learn.

	<p>4. about dental health and the benefits of good oral hygiene and inter-dental cleaning, including regular check-ups at the dentist.</p> <p>5. about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing.</p> <p>6. the facts and science relating to allergies, immunisation and vaccination</p>
Personal safety	<p>Pupils should know:</p> <ol style="list-style-type: none"> 1. about hazards (including fire risks) that may cause harm, injury or risk and ways to reduce risks. 2. how to recognise risk and keep safe around roads, railways and water, including the water safety code.
Basic First Aid	<p>Pupils should know:</p> <ol style="list-style-type: none"> 1. how to make a clear and efficient call to emergency services if necessary, including the importance of reporting incidents rather than filming them. 2. concepts of basic first aid, for example dealing with common injuries and ailments, including head injuries.
Developing bodies	<p>This should not be taught before year 4.</p> <p>Pupils should know:</p> <ol style="list-style-type: none"> 1. about growth, change and the changing adolescent body, this topic should include the human lifecycle. Puberty should be mentioned as a stage in this process. 2. the key facts about the menstrual cycle, including physical and emotional changes.

APPENDIX 3 – RHE curriculum overviewThe Early Years Foundation Stage

In the Early Years Foundation Stage (EYFS), PSHE education is about making connections; it's strongly linked to child-led activities, including play. PSHE is taught through activities that are part of topics, as well as on an individual basis to develop personal skills such as dressing, feeding and toileting. Positive experiences are built through daily opportunities, to share and enjoy a range of different activities. Children are given the opportunity to engage in social activities, as members of a small group or occasionally during whole-school activities.

Key stage One and Two

The PSHE curriculum is divided into 3 main concepts of Safety, Relationships and Health and Wellbeing. These are then broken down into Sub-concepts and components as follows: -

Concept	Sub concept	Components
Safety	Being safe	Feeling safe
		Protecting ourselves (inc consent)
	Internet safety & harms	Online risks
	Drugs, alcohol & tobacco	Healthy choices
	Basic first aid	First aid (inc diabetic first aid training)
	Living safely & well	Fire safety
		Money management (inc jobs/ aspirations)
		Road safety
		Water safety
		Gang culture (KS2 only)

Concept	Sub concept	Components
Relationships	Families and people who care for me	Special people
		Family life
		Sense of belonging
		Difference
		Unions
		Feeling safe
	Caring friendships	Making friends
		Communication
		Healthy friendships
	Respectful relationships	Respectfulness
		Responsibilities

		Bullying
	Online relationships	Online relationships

Concept	Sub concept	Components
	Mental wellbeing	Mental health
Health and Wellbeing		Understanding emotions
		Community
		Trusted adults
	Physical health and fitness	Healthy living
		Health risks
	Healthy Eating	Healthy diet
	Keeping Healthy	Sun safety
		Sleep hygiene
		Dental hygiene
		Personal hygiene
Changing Adolescent Body	My changing body	

[PSHE Association Programme of Study for PSHE Education \(Key stages 1–5\), Jan 2020.pdf](#)
