MP visit soon! *By Kate*

On Monday 24 March, Darren Paffey (our local MP) was supposed to be visiting the school. Members of the Pupil Voice were going to meet with him. We were hoping to talk him about the free breakfast club we were promised, but when we looked into it, it was too expensive! What does the word 'free' mean to you!? Unfortunately, it has been postponed until early May. We all need to be on our best behaviour. Hopefully this will go towards our Rights Respecting School Gold Award!

this special month. This year, Ramadan started on 1 March and ends on 30 March. The beginning starts at a different time every year due to the lunar cycle. Ramadan starts at the first sighting of the crescent moon.

Meet Ivy *By Kate*

As you know, Ivy is our new school dog. "Ivy likes sausages and chicken", says Mrs Millard. "Ivy lives with me and I have three other dogs and three cats". We asked out pet-loving deputy head teacher to tell us more.

"Ivy is seven years old. The dogs are Woody (11), Arlo (7), and Ponyo (3). The cats are Jackjack (12), Ziggy (5), and Kiki (2). She lived with my best friend for four years but then she had to give her up. So then my dad said he would look after her so she lived with him for three years. But then he got poorly so then I agreed to take her in" explained Mrs Millard.

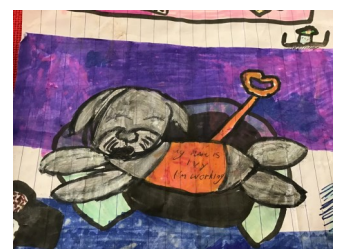

Ivy is very affectionate and she is already enjoying working here. Make sure your classroom is tidy in case she comes to visit, but please remember not to pat her on the head.

Students celebrate Ramadan *By Sara*

Ramadan is the ninth month in the Islamic calendar. Muslims can choose to fast from sunrise to sunset. At sunrise, they have a meal called suhoor and

the sunset meal is called iftar. Sunset gets later by two minutes, so iftar is 2 minutes later every day, while sunrise gets earlier by three minutes every day. Most Muslims focus on praying and reading the Quran during Ramadan, while others may choose to focus on being kind and making good causes during

How to draw: axolotls *by Kate*

Language Corner *By Shadrach*

Hi! Today we will be learning 5 words in *Lingala*.

First, let's learn 'Hello' In Lingala, it's *mbote*.

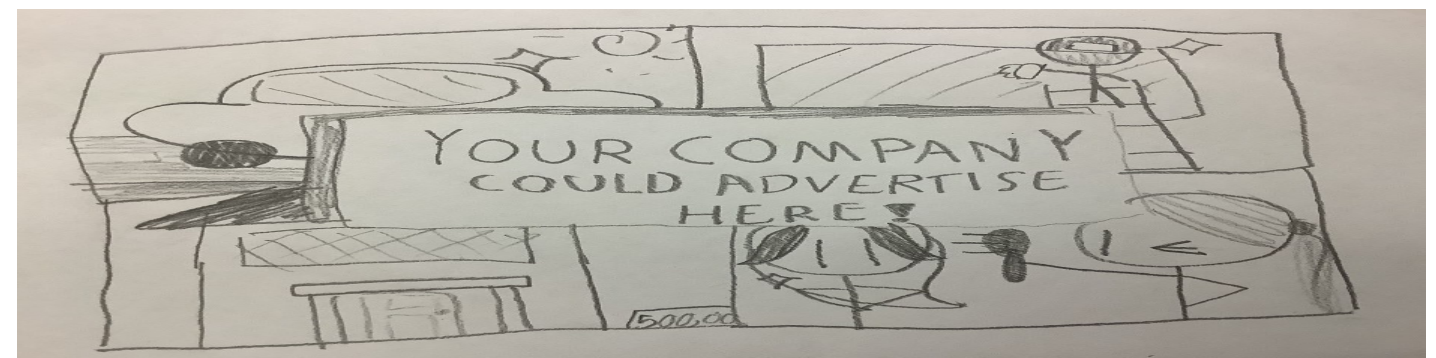

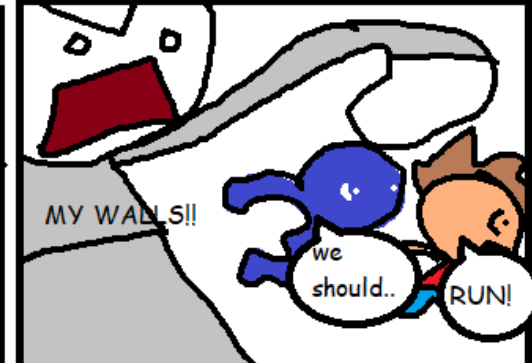

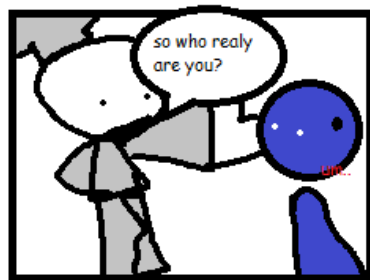

Now let's learn 'Goodbye'. In Lingala, it's *kende malamu*.

Let's learn 'thank you'. In Lingala, it's *matando*.

Now let's learn 'please'. In Lingala, you say *bolimbisi*.

Finally let's do 'no'. In Lingala, it's *te*.

food fights : the next part

All about Axolotls!

With Olivia

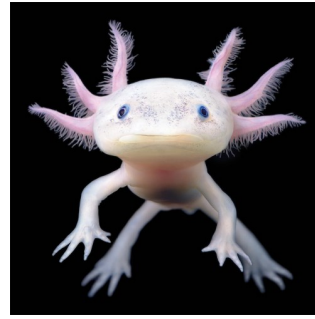

The axolotl is a paedomorphic salamander, closely related to the tiger salamander. It is unusual among amphibians in that it reaches adulthood without undergoing metamorphosis. Instead of taking to the land, adults remain aquatic and gilled.

Their diet

Axolotls can be fed earth worms, insects, small crustaceans, narrow strips of raw lean fish or chicken. They can be fed by hand by wiggling it in the water. Most axolotls will eventually learn food for carnivorous fish, for example, salmon pellets.

Axolotls' predators

The axolotl has few predators in the wilderness, though they may be taken by storks and herons as well as large fish (carp and tilapia) on occasion. Their biggest threat is urbanisation and pollution of the fresh water lakes and ponds they inhabit. In the wild, axolotls generally live 5-6 years but can reach 15 years in captivity.

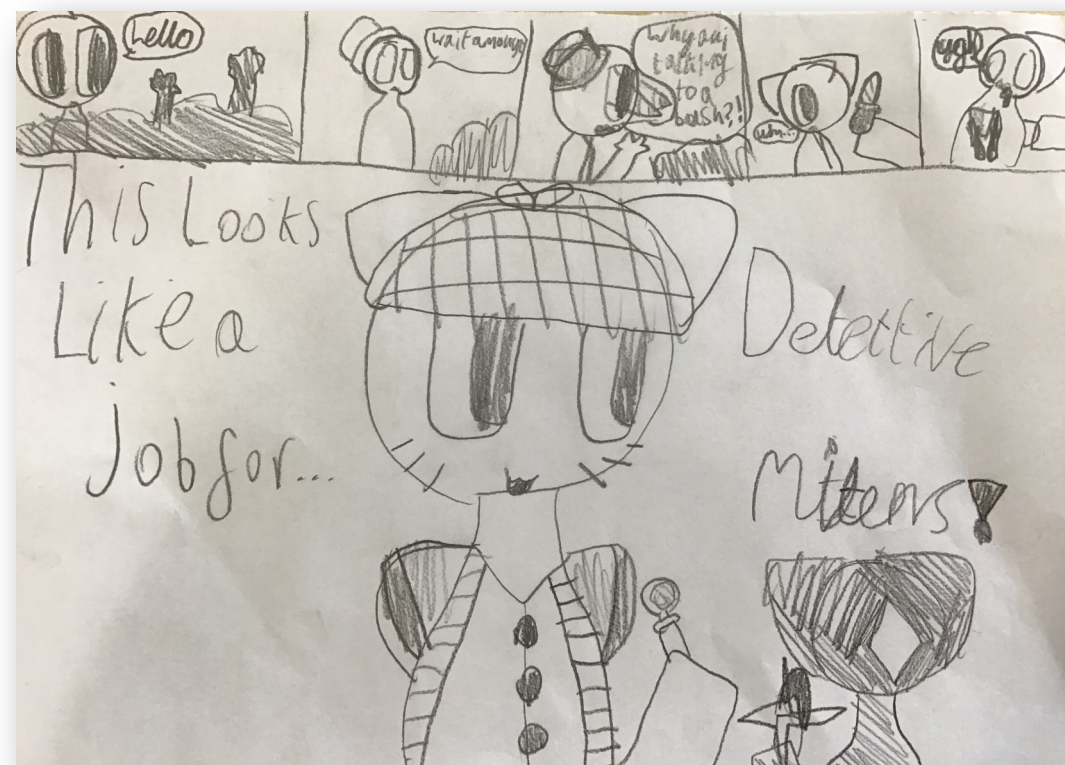

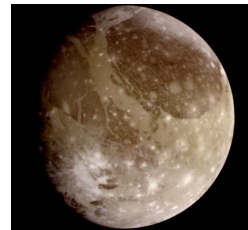

Mysterious moons

By Sara

Ganymede

This moon orbits, Jupiter, he's also the biggest moon of Jupiter and the solar system with a radius of 2,631 km at minimum. What's also interesting is that he's one of the few moons larger than Mercury. Images of this moon show a grey, pale colour, while others show a canary yellow. Ganymede is the only moon with a magnetic field (iron filings surrounding the celestial body to protect it from damage). He orbits at around 7 days and 7 days and 3 hours, which means one side is always facing Jupiter, this is called tidally locked. Ganymede's temperature is from -203oC to -121oC. Ganymede has oxygen, but not enough to survive without a space suit. Finally, like many moons, it has an underground ocean!

Thailand diaries

By Pollie

In London Heathrow airport the journey starts with a long aeroplane then a stop at Abu Dhabi then another flight to Bangkok. Finally we arrive at a hotel called new siam2 at about 10 o'clock we went out for dinner and then go to sleep. Next morning I woke up and had breakfast then I went in the pool and tried my first coconut by then it was dinner time. And same the next day. After 2 days of swimming it was new years eve we stayed up until midnight and played with mini party poppers and my little brother fell asleep on 2 chairs.

So we arrived at Kohsamui after a half an hour flight. We got a taxi and drove to our resort and unpacked all of our belongings ready to go down to the beach. Next morning we woke up and had fruit for breakfast and went out to town by then it was lunch .then dinner which was chicken nuggets . Same the next day . One day we went to the beach and swam in the sea. That night we went to a fire show and fire swung around my head. Literally! After 2 weeks of joy we were ready to head back with Etihad airways.

custom roblox face

have a custom rblox face by going to rblox player open in files and find roblox face in it replace roblox face with your image and name it face

Please remember: children should always talk to an adult before playing any games or going online. Please be aware that Roblox has a PEGI rating of 7. Please be internet safety aware - there is parental guidance here: www.nspcc.org.uk.

WOW

SPOOPY

LOL

FORSAKEN

rblox game of da month
forsaken is a rblox game where you can be a survivor or killler and your job is too win this game is heavily based on classic rblox and has lots of references it HAS LOTS OF COOL SKINS AND CHARACTERS GO PLAY IT

Bob Da Gam - a cool roblox game we are making. COMING SOON :)

new scool dog

ivy

hello every one and we have a new school dog here are some rulres to remember needsd clean enviroment hands on desk no food or anything on floor no feeding them especially chocalate be quiet sit properly no being nervous /scared around ivy ect
